

OUR EXPERTISE IN ESTABLISHING IMPACT FUNDS

We act for managers and investors raising funds or for investors themselves, investing anything from £10m to £1.2bn - with a lot of emphasis on ESG criteria and Impact.

We work extensively with our clients to help them understand what ESG means for them, assisting them to define their policies and requirements, so they can develop better understanding for their investment criteria. An increasingly important part of our work is drawing up a framework for ESG. And in the background to all of this is the ever evolving regulatory aspect, which we work with our clients to remain informed of, both in terms of current and anticipated regulatory developments.

RECENT DISCLOSABLE WORK INCLUDES

Bridges Fund Management

on the establishment of Bridges Ventures Sustainable Growth Fund IV

Warrington Borough Council

on the launch of a social impact fund, in joint venture with Altana Capital

Actis LLP

on the takeover of four emerging market funds, representing approximately US\$5bn of assets under management

Greater Manchester Combined Authority

on the launch of two new development and regeneration funds for the purposes of deploying **£75m** of ERDF funding in the Greater Manchester area

Bridges Fund Management

on its UK social housing joint venture with The Ethical Lettings Agency CIC (TELA) to form The Ethical Housing Company

an institutional manager

and investor on the formulation and implementation of an ESG policy, to be applied across all of its private equity fund investments
